Traffic Congestion Taxes the World's Longest Bridge for Shortest Railroad.

> Will Make Possible Through Travel from Florida to Canada.

Work has begun here on what will eventually be the longest bridge in the world's shortest four-track railroad-only an elevated train and several six miles in length. This new bridge, the buildings, setting fires which the deluge fifth to connect old New York with Long extinguished. Incoming trains from all Island, will cross the Heil Gate end of directions were delayed, some of them East river, with footbolds on both Ward's and Randall's plands. The New York rise begins at 142d street. At Bronx Kill it will be 65 feet clear above water. Between the Bronx and Randall's island the span will be divided so that each half may lift and allow the passing of vessels between. This is known among bridge builders as the "Jack Enife Draw." There will be a clearing of 125 feet above aigh water over the main channel of East river between Ward's island and Long island. The longest of the five spans will be 1,017 1-2 feet. The abutment sey meadows became securingly part of steel members over fabricated in a pridge In New York, the weather bureau ex- 185 tons. About \$5,000 tons of steel will necting raffrond-by name- is to be the proximately 12 hours ending about eix itnk, heretofore missing, for through travel without change between Canada and

City houses that can be purchased at a was killed. Patrolman Hugh Clarke of cost of & cents a day are about to be increase this daily cost to 83 cents. Plans for a first batch of 150 such houses ar ready and for them there are already more than 600 applicants. The scheme is of Queens convenient to many large inbedrooms, besides living room, kitchen and bath. The cheaper houses will be hufft in rows after the type known as "Philadelphia houses," while the expensive ones are to be semi-detached. with gardens on three sides. Conditions to be exacted of those who buy will be good moral character, five years' steady employment, recommendation of employers for trustworthiness, generally good health, and at least one child to the fam

"All ashore on October 7" is the order that has been promulgated on aboard the independence of Mongolia under Chinese ship which had long ploughed the "seven seas" before its conversion by a wellknown philanthropist about 15 years ago "deep sea hotel" for workers. > > A most remarkable case of its kind was the recent transfer without any guard whatever of a group of convicts from the State farm at Valatie, New York to the Great Meadow prison at Comstock. There were eight of them-all long term men, three having been convicted of manslaughter. According to the farm authorities their prison records were so good that no fear was entertained of any attempt to escape when thus placed on rival called intellectuab" (XII. 19, 11, 12), their honor, although a lay-over of near-"Son, give the woman her way; for ly an hour at Albany afforded ample opportunity. All were dressed in overalls, except one young member of a well-to-do family in this city who was resplendent in a new suit of clothes just of need, so is a fond woman who telleth received from home. There was nothing about the men to distinguish them from ordinary workers. They were, however, establishing a record in the criminal his tory of the State

HER VACATION.

On, yes' I had a lovely time Superintively gay. is afraid to say that his soul is his own I turkey-trotted every night And bonted every day, I were my tange bathing dress. It struck beholders dumb, It was the briefest on the beach. And that is noing some

> I'm all worn out and hardly fis To pound the keys again; On nerves and pocketbooks and clothe Vacations are a strain. But mine was worth it, for I ate Some mutton sauced with capera Got promaine potsoning and my name In all the Sunday papers.
